VITALINI

The synthesis in a logo, the identity in the name, the history of the most demanding ski slopes in the World: Vitalini is the sportswear wanted by people who, on sport, have made their choice of life, their profession and their way to be.

The graphic representation of a downhill racer, high-speed expression and control, strictly dependent on organization, programming, preparation and technical attention to detail in the choice of equipment to minimize errors: an image that encapsulates all the direct experience of Vitalini, reported all in production of clothing designed and realized by those who know well the needs in their use, combining them with the peculiarities that only those who have experienced extreme stress, first as World Cup racer and then as Ski Instructor and Coach, can elaborate and propose.

VITALINI is not like a simple trade mark but it is the name of an athlete, a man who puts himself personally in front and at the disposal of his clients, sharing his work environment and proposing his style: what allowed him to be like in the "excellence". Our goal, excellence, is a belief that he has been able to transfer to the production of sophisticated base for the new line "VITALINI PERFORMANCE SKI WEAR". A collection of technical garments and accessories that combine cuts and productions designed to maximize the freedom of movement during extreme and stressful workouts for the fabrics, all combined with optimum heating and waterproof, always guaranteeing high color resilience during long time and long using.

VITALINI's approach to customer is to give them as much as possible support, assistance and collaboration has enabled to realize and offer high quality products that have satisfying for over 12 years prestigious clubs, athletes, teams and schools all over the World.

The VITALINI proposal is complemented by an exclusive service, respect to the market, with an internal tailoring service, that, depending on the demands of the various clients, allows us to satisfy all their request, permits us to provide timely assistance and intervene on possible but often inviting working accidents like tearing, scraping, cutting, staining, and assisting clients with with a few pcs. orders.

VITALINI is a professional and passionate Team, ready at an ideal starting gate to face those trials, those that the most exiled will want to ask us.

We are ready.

Texture and Technologies

NYLON TORAY

dermizaxJackets and suits are packed with high-strength Nylon fabric, coupled with Dermisax incinerator membrane, membrane water column> 20,000 mm / 24h and breathability of 20,000 g / 24h.

WR WATER REPELLENT: wp treatment rejects and slides the water while maintaining the breathability of the fabric. It is resistant to numerous washing and its effectiveness is restored by drying and ironing of the head, with the guarantee of a spray test of 80, after 100 washings. Color is guaranteed in both sunshine and washing with index 4.5.

POLIESTERE TORAY

dermizax1 Jackets and suits are packed with polyester fabric, coupled with Dermisax DX membrane, membrane water column> 20,000 mm / 24h and breathability of 10,000 g / 24h.

WR WATER REPELLENT: wp treatment rejects and slides the water while maintaining the breathability of the fabric. It is resistant to numerous washing and its effectiveness is restored by drying and wiping the head, with a guarantee of 80-spray test seal after 20 washes. Color is guaranteed in both sunshine and washing with index 4.5.

ALL PRINT POLIESTERE TORAY

allprintJackets and suits are packed with polyester fabric, coupled with Dermisax DX membrane, membrane water column> 20,000mm/24h and breathability of 20,000 g/24h.

WR WATER REPELLENT: wp treatment rejects and slides the water while maintaining the breathability of the fabric. It is resistant to numerous washing and its effectiveness is restored by drying and ironing of the head, with the guarantee of a spray test of 80, after 100 washings. Color is guaranteed in both sunshine and washing with index 4.5.

POLILIGHT

polilightFabric 2 layers and 1/2, lightweight easy to store, membrane water column> 20,000 mm / 24h and breathability of 20,000 g / 24h.

Ideal for waterproof mantles.

PRIMALOFT®

primaloftWater-repellent microfibre padding, which, thanks to the most advanced technology, allows you to obtain garments with superior thermal insulation, lightness, and softness.

WINDTEX

windtexThanks to the Windtex products, you can access to the fullest and perform the outdoor activities in total comfort. Windtex products are able to provide comfort, warmth and protection in the pursuit of the most diverse activities and experiences without unpleasant feelings of cold, humidity or overheating.

CORDURA

corduraHighly resistant fabric used in tear and abrasion inserts.

DOWN PRIMALOFT

down-primaloftHigh quality jacket that combines the lightest capability of the duvet's thermal capability with a low percentage of feathers while guaranteeing maximum lightness and exceptional comfort.

Think GREEN

Commitment to my life has always been a constant: first as an athlete and now as an entrepreneur, I go all my efforts to IMPROVE SPORTS TECHNICAL CLOTHING thinking above all to the youth world.

Recent advances in the field of material technology have made it possible to make substantial improvements to sports technicians, making them more powerful and durable.

Pongo Extreme ATTENTION TO CHOOSING MATERIALS: It is not only a question of comfort or technicality, breathability, thermality, waterproofness, it is above all control of the path made by each single component of the product to ensure a HIGH LEVEL CAPO, free of allergens and toxic substances, AND ETHICS, respectful of the dignity and health of those who work.

The Vitalini Performance Skiwear leaders have received CERTIFICATION of suitability for both outer fabrics such as OEKO-TEX and Standard 100, and for inner, synthetic and goose feather padding, such as EDFA.

CARE OF DETAIL and WARNING TO SECURITY are the cornerstones of my research: along with my team we have studied solutions that eliminate inadequate accessories, such as elastic bandage or hoods, sometimes dangerous to the user.

My commitment goes beyond the finished product, it goes to the ethical and human sphere, to communicate through the garments to which I have given my name the love and passion that I have always cultivated for skiing, a clean and healthy sport, like the mountain and the Vitalini brand.
